

Cupped using Arabica Cupping Form

The figure consists of two charts. The left chart is a donut chart representing the composition of a product, with segments for: chocolate, nut, hazelnut, brown sugar, honey, vanilla, caramel, cacao nibs, and bittersweet chocolate. The center of the donut chart contains the text "Tastify®". Below the donut chart, there is a legend indicating that the purple checkmark icon represents "Fragrance / Aroma" and the blue checkmark icon represents "Flavor". The right chart is a radar chart with seven axes: Overall, Fragrance Aroma, Flavor, Acidity, Body, Aftertaste, and Balance. The axes are labeled with values 2, 4, 6, and 10. The radar chart shows a purple line connecting data points across the axes, with the highest values on the Overall, Fragrance Aroma, and Flavor axes.
